

I am sending this to urge the FCC not to implement any proposal that would lessen Indiana's Telephone Privacy law protections. I work part-time outside the home and would still receive at least one to two calls daily. The law has been so effective that I now will go weeks without a solicitor call. The law has improved my time at home with family, and I really do not want to see that changed. I think that it is important that family time be protected and not interrupted with unwanted solicitor calls. Please take my opinion into consideration. Thank you.
